Brightly

Brightly **TheWorxHub™**

TheWorxHub™ for Healthcare.

No matter what type of healthcare organization, the goal is to deliver exceptional patient care while promoting standards focused on quality and safety. But how can you help fulfill that with the ever-changing compliance requirements and a lack of resources and time?

With TheWorxHub by Brightly, you can own your healthcare operations with easy-to-use tools for tracking maintenance, planning for the future and creating a high-quality Environment of Care.

Simplify the day-to-day.

Give your team anytime, anywhere access to the information and tools they need to do their jobs on our cloud-based platform. Manage all work orders, assets and maintenance activity in one central location with improved communication.

Know what to do.

Eliminate paper and digitize work orders to make your team's jobs easier and more streamlined with request automation, inventory management and work order prioritization.

Extend the life of your assets.

Adopt proactive maintenance workflows with PM and scheduled work orders so you prevent problems before they occur.

Predict the future.

See the current state of your operations and develop a plan for the future. Drive decision-making with configurable data analysis and built-in reports from a central dashboard.

Go mobile.

Our user-friendly web application goes with you wherever you're needed (desktop or mobile), is optimized for all screen sizes, and is available on iOS and Android devices.

"

As we've started to utilize TheWorxHub, we're seeing that it really is tailored toward hospitals. After using it, you can see how it really helps to keep you organized and on track to be compliant.
