Budgeting and forecasting, asset health monitoring, and built-in project tools

Event Management

Facility event scheduling and booking, event cost recovery, and scheduler integrations

Mobile App

Bar code and QR code capabilities for more order, asset parts management

Implementation, training, and support

Access our legendary support team, as well as unlimited access to our learning management system

In the past, people didn't understand that we are severely underfunded. We needed work order data and contractor data to help them see where we're spending our resources and justify funding needs.

Monique Roumo
Executive Director of Operations, Baltimore City Public Schools

Facility improvement tools that boost efficiency and guide strategic decisions in one solution

Brightly's suite of powerful, cloud-based solutions work together to help you and your teams improve the efficiencies of today, while helping plan for growth of tomorrow. Whether you are taking your first step in establishing a modern asset foundation, or you are shifting into long-term strategic planning, Brightly is there to help you — one asset at a time.

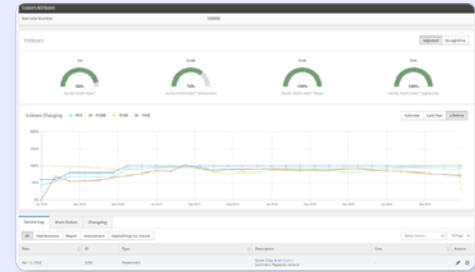

Asset Essentials

Positioning yourself for long-term success, Brightly Asset Essentials™ is your facility management go-to in gaining greater operational insight into your manufacturing assets and work order management. From automating work orders to centralizing work order histories into one, easy-to-access location, Asset Essentials is your first step in establishing a strong facility management foundation, designed to improve team productivity, efficiency, and communication.

Origin

Your all-in-one capital planning tool as you shift to strategic facility management, Origin accesses and analyzes your asset data in real-time, helping you determine where to focus your limited funds and improve your capital spending. Combining your real-time data with predictive modeling, Origin helps you confidently make & justify budget requests and capital plans to leadership, while visualizing the costs of deterring maintenance.

Energy Manager

Brightly Energy Manager™ is your world-class energy management tool that helps your asset and energy team identify utility waste, better prioritize action, and make smarter operational decisions with centralized utility management. With automated utility imports and real-time analytics, you can make informed decisions to meet your organizations goals and align with your students and community.

Event Manager

Manage events with ease with Brightly Event Manager™, the all-in-one event management solution designed to streamline facility and room rentals for communities and staff. Built to help recognize revenue on facility use and simplify event-related logistics and scheduling. Complete with facility and sports integrations to keep your events aligned in one place that ensures availability and the best experience for your students, staff, and community.

Experience the Difference

Brightly's award-winning implementation and support teams are legendary — providing our best service so you can do your best work.

Our partnership doesn't end once you and your software go live. Along with our legendary support team, we combine expertise, training, libraries, and curated learnings with anytime, anywhere access to ensure you and your teams have what you need to thrive and be successful.
